Our Intention

This course will prepare you to become a certified EMYoga Foundations Teacher so you can teach EMYoga to others. We will guide and support your online training experience, every step of the way. Now more than ever, the world needs EMYoga to help amplify the body's innate capacity to heal.

What does this course entail?

This course includes over 20 hours of recorded content from Lauren Walker, creator of EMYoga. These videos include both asana practices and lectures. Moving forward, all in-person EMYoga Foundations Teacher Trainings will be led by Master Teachers, such as

ENERGY MEDICINE YOGA[®]

Alyson, Jacqueline and Kris. If you are interested in becoming an EMYoga Advanced Teacher, this Foundations course is your first step.

Your main takeaway from this course will be your certification to teach The EMYoga Essential Practice. In addition, you will be qualified to create your own EMYoga classes using all the components or specific components of your choosing from the Essential Practice. The additional practices taught in this course are for your own experience and personal practice only. Additional trainings offered by Lauren in the Advanced Training Program (ATP) will further your studies and certify you to teach these additional practices, and others.

Content Overview

Module 1

Learn the nine distinct energy systems of the body and how we work to balance them in the practice of EMYoga. You will be taught in detail the components and techniques used in The Essential Practice, gaining a deeper understanding and respect for the power of this intelligent and magical union of yoga and Energy Medicine. The body speaks a very specific and clear language. You will learn how to respond back, creating a deep and reverent intimacy with the body. Through this study, your body will become your instrument, tool and teacher on your path to self-healing and transformation.

In addition, you will be immersed in the principle that sound is energy. Discover the power of not only sound, but the importance of silence as well, as it relates to both our physiological and mental states.

Module 2

You will engage in the study of the yin-yang theory in Ancient Chinese philosophy; and how this comparison of seemingly opposite forces relates to our physical and emotional bodies, and our relationship to the universe at large. Learn in detail the individual components and the importance of the daily EMYoga Wake Up Routine, and experience the power of incorporating detoxifying self-massage techniques into every practice. You will discover and explore the relationship of the energy systems Triple Warmer and Spleen, learning how to work with their respective meridians to affect the endocrine system and calm the stress response. These techniques will be some of the most important tools you will learn to teach your students.

ENERGY MEDICINE YOGA[®]

Module 3

An in-depth study of the Five Element theory which gives us a simple and unique way to understand and work directly with our emotions. Begin to observe and learn from your own emotional patterns as you experience and learn to teach The Five Element Flow which gives us a tool to process, release and cycle through our challenging emotions, balancing both the emotional and physical body. Explore and study how this unique system can be applied to every aspect of your life.

Module 4

Enter into the realm of magic and miracles as you learn to work with the energy fields governed by Triple Warmer. Experience powerful practices in order to create transformation and manifest your heartfelt desires. Learn the importance of fostering ritual, building community and practicing gratitude. This course is a practice to the self. Embrace it and share it with the world!

Cost

\$825. Note that the main training videos are no longer available after the eight-week duration of the course; however, you will be given access to the Essential Practice, Five Element Flow and Wake Up videos immediately following the end of the course.

How does the program work?

There are four training modules. Every two weeks you will gain access to the next module. Each module includes two EMYoga practices and several lectures. The course is self-directed, but we recommend you complete the content from each module within the two-week period that is outlined in your syllabus. Every two weeks, you will be required to attend one of the scheduled Faculty Calls via Zoom. You will be assigned a TA (Teaching Assistant) to guide you and also to a designated “Small Group” of students. In addition, you will be paired with a peer mentor who will be a fellow student in the program.

How many hours per week should I anticipate?

You can anticipate approximately four to six hours per week, at a minimum.

What are the requirements for each module?

Each module (a new one every two weeks) you are required to watch and practice the designated content, and attend ONE Faculty Call and ONE Zoom call with your TA. In addition, you will meet with your peer mentor as needed. Each Zoom call is scheduled for one hour. There will be at-home

ENERGY MEDICINE YOGA[®]

assignments for each module, which include reading and practicing EMYoga techniques with your peer mentor.

What if I can't attend a Zoom call?

The Faculty Calls are held via Zoom on Tuesday evenings at 5:30 pm MT and Thursday morning at 8:00 am MT. Specific dates are provided at the beginning of the training. You can attend as many Faculty Calls as you'd like, but you are required to attend at least ONE per module. The TA calls and peer mentor calls will be scheduled based on your group's availability as a whole. We will address absences for TA calls on a case-by-case basis.

How much does the program cost?

\$825 USD

How many Yoga Alliance CEUs does the course offer?

You can earn 30 CEUs for this training. We are a YACEP.

Maintaining your EMYoga Certification

What are the prerequisites?

Please read Lauren Walker's book Energy Medicine Yoga: Amplify the Healing Power of Your Yoga Practice. In addition, a 200-hour YTT certification, or its equivalent. If you do not hold a certification, you can take this course as an immersion if you have a long-standing yoga practice. Please outline your experience on the application. Lauren's second book The Energy Medicine Yoga Prescription is not required, but it is certainly helpful!

ENERGY MEDICINE YOGA[®]

How long will I have access to the videos and content?

You can download the Student Manual and other PDF document handouts to keep for your reference. All of the recorded lectures and practices will be removed after the final week of training.

Why? *It is our intention to keep the online experience as authentic and credible as the in-person training. We know that students tend not to invest and immerse themselves in course material the same way if they know they have lifetime access to the content. Our hope is that you will commit to learning this material by taking excellent notes, just as if you were with us live! The price is the same.*

Will Lauren Walker be my teacher?

The practices and lectures are all pre-recorded and delivered by Lauren. There will be two live Q&As with Lauren.

Is there an exam?

*Yes. The certification exam includes several short answer questions that you will submit electronically via Google Docs. You will also be required to submit two short teaching videos and upload these to DropBox. These teaching videos are not to be done LIVE with students, but are simply you teaching to the camera. You will have two months after the course to complete your exam and teaching videos. You will receive your exam feedback and/or certificate within one month after the due date. *Please note - if you want this course to count as a certification, you must successfully pass your exam.*

What are the technology requirements?

You will be required to use Google Drive, Google Docs, DropBox and Zoom. You can create a free account for each of these programs and will

ENERGY MEDICINE YOGA[®]

receive details on how to accomplish this upon acceptance to the program. Facebook is optional; however, it can be extremely valuable as it gives you the opportunity to engage with other students and ask questions. We also post reminders of meetings with their respective Zoom links.

How does this course differ from your DailyOM classes, the Yoga Journal course with Donna Eden, or other courses?

This is a teacher training. All the other courses do not certify you to teach EMYoga to others. This training will prepare you to teach the techniques as well as educate you on the why's and how's of EMYoga. Upon successful completion of your Foundations exam, you will be eligible to add your name to the EMYoga Teacher Directory on emyoga.net.

How does this course differ from your in-person teacher training?

The content and price are exactly the same! The in-person training is taught by EMYoga Master Teachers, such as one of the Faculty or TAs for this online course. The main difference is the pace. The in-person training is a four-day intensive, whereas this online training is eight weeks.

Does the course guarantee my certification?

No. We do not automatically provide you with a teaching certificate, simply because you completed the course. You need to meet all the attendance requirements and successfully complete the exam. Once all these benchmarks are met, your TA will evaluate your readiness and then award your teaching certificate. If we do not think you are ready to be certified, we may offer you the opportunity to continue your studies and give you an extension on the exam.

ENERGY MEDICINE YOGA[®]

If you pay your tuition, but then decide you want to defer - what happens?

We do not offer refunds, but we will honor your acceptance and enrollment for one full calendar year. For example, if you pay for the September 2021 training, but decide to defer - you will have until September 2022 to re-enroll for the Online Foundations Teacher Training. If you defer once the training has already begun, there will be an additional \$125 administrative fee.
